ScanTech Holdings Nominated for "International Deal of the Year" at Atlanta Business Chronicle's International Awards

(Atlanta, GA) September 10, 2009 - The Atlanta Business Chronicle announced today that ScanTech Holdings LLC has been named a finalist for the "Governor's International Awards," presented by the World Trade Center. ScanTech Holdings LLC has been nominated in the category of "International Deal of the Year" for large companies for their contract with United Arab Emirates for their Airport Baggage Screening Equipment.

"We are honored to be recognized by the Atlanta Business Chronicle," says Dolan Falconer, CEO and President of ScanTech Holdings. "We are very excited to be working with the United Arab Emirates Government and the Abu Dhabi International Airport. This airport is considered among the finest airports in the world and it is a great honor to be selected to provide the baggage inspection equipment."

"It is clear that our technology has been validated as we have had significant sales in the international markets," says Oliver Lee, Chairman of the Board of ScanTech Holdings. "Having enjoyed that success, we are now turning our attention to raising funds to replicate that achievement domestically, given that we have been invited again into the TSA program."

This special event will highlight the companies and individuals working to build and strengthen metro Atlanta and Georgia's international business community. The winners will be honored at the Atlanta World Showcase on September 17 at the Cobb Galleria Centre, and featured in the September 18 issue of Atlanta Business Chronicle.

Awards will be granted in seven categories: international deal of the year in large, medium and small company classifications, importer of the year, exporter of the year, individual of the year, international education program, new company of the year and lifetime achievement. This event will bring together Atlanta's international business leaders and all 53 international consulate offices to showcase world culture and honor the players who drive Atlanta's worldwide business growth.

About ScanTech Holdings:

ScanTech Holdings, LLC, a private company based in Atlanta, is a world leader in X-ray and E-beam technology. ScanTech IBS has developed and patented technology that automatically differentiates the physical properties of potentially deadly items terrorist may attempt to smuggle across borders, such as nuclear and radioactive materials, and explosives, including liquid explosive compounds, among other things. ScanTech's IBS division produces airport checkpoint screening equipment and large scale cargo scanners for sea and land ports of entry. The ScanTech IBS systems are fully operationally and are currently in the process of being deployed abroad.

ScanTech IBS won first place in "Defend America Challenge" which promotes best technologies to safeguard the U.S. against terrorist attacks and was named to Technology Association of Georgia's Top 10 Most Innovative Technology companies in 2008. For more information visit www.scantechholdings.com.
